

Welcome to Your Child's EmblemHealth Dental Benefits

We're happy to offer your child quality dental care through EmblemHealth's Small Group Bronze Premier-P Plan. Our goal is to give you access to high quality, low cost care.

As a member of EmblemHealth's Bronze Premier-P health plan, your child will:

- Be covered for preventive services like cleanings, X-rays, and exams.
- Be covered for basic services for fillings, root canals, extractions, and periodontal care based on your dental benefits.
- Be covered until the month they turn 19.

IN-NETWORK COVERAGE

You will be able to choose from our in-network dentists and specialists in New York State. Simply show your child's EmblemHealth member ID card at their dental visit. You do not have out-of-network coverage. If you choose to visit an out-of-network dentist, you will be responsible for the cost. Preauthorization is required for major dental care and orthodontics.

YOUR DENTAL BENEFITS

Here are some important things to know about your benefits:

- There may be a deductible. A deductible is the amount you must pay each year before EmblemHealth starts to pay. You can find more information in the table below.
- Your out-of-pocket maximum, the maximum amount you will have to pay each plan year for dental care, is listed in the table below.
- A child is any member under 19 years old. This benefit is a pediatric benefit and can only cover children.
- You do not have out-of-network coverage. This means that your child must see an in-network dentist or dental specialist or you will be responsible for the cost.

EMBLEMHEALTH HMO BRONZE PREMIER-P

ANESTHESIA — A drug used by a dentist to numb your mouth or put you to sleep so no pain is experienced during dental procedures.	
General anesthesia	Deep sedation/general anesthesia — each 15-minute increment. Anesthesia time begins when the doctor gives you the anesthetic and ends when you can be safely left alone. For billing purposes, it is measured in 15-minute increments.
Intravenous anesthesia	Intravenous moderate (conscious) sedation/analgesia — each 15-minute increment. Anesthesia time begins when the doctor gives you the anesthetic through an IV and ends when you can be safely left alone. For billing purposes, it is measured in 15-minute increments.

The information on this coverage summary should be used only as a guideline for your dental benefits plan. For detailed information on your plans terms and conditions, or limitations and exclusions, refer to your Certificate of coverage. If you receive a treatment from an out of network dentist you will not have benefits and you will be billed at the dentist's normal rate.

This summary provides only benefit highlights. Coverage is subject to all terms, conditions, limits and exclusions set forth in the Certificate of Coverage. Refer to policy form: 155-23-NSSGBronzePremierpSch (9/22). This plan is underwritten by Health Insurance Plan of Greater New York (HIP).
